This is one of the best courses I have taken as a student. Highly challenging yet integrates familiar concepts w/ technology in an inspiring way. I really stretched my abilities & felt great. Great instructor, enthusiastic & knowledgeable. He helped motivate me to work hard.

I came into this class not expecting much. I was hoping I could just blow it off and do fine. From what I heard from others, that was what they got; but Karl seemed to know infinitely more about this subject than any English (or tech) instructor I've had on this subject.

I thought this course was great. The projects were fun and interesting. Project 3 [Guerilla Multimedia] was especially exciting. It was unlike any project that I've ever done. The challenge of discovering my own problem to devise a solution for was really cool. I enjoyed the readings as well. Some from the Packer & Jordan book were a bit difficult to get through, but still important. Karl was an excellent instructor. He was always available to help out and made the class periods fun and interesting.
